

Wednesday, 23 October

1300-1600 Break Out Session Seven – Erik Endrulat & Joel Thomas (G&H)

- Review and discussion of CAPSTONE Layer Lists submitted by states
- Decision on what systems will be used for each layer (input and display may differ)

Thursday, 24 October

0830-1130 Break Out Session Seven (continued)

- WebEOC focus – determine what boards will be fused and work thru the fusion process
 - should be led by Art Faulkner, Alan Spraggins, and WebEOC representative

1300-1600 Break Out Session Seven (continued)

- AGOL/ESRI focus – discuss what data will be captured by AGOL and how capture process will work
- CUSEC AGOL organization account and relationship to states, fed, private sector
- Technical discussion on pushing services from WebEOC, ArcGIS server, ArcGIS data collector app and other systems (as identified from layer list entries) to AGOL cloud.
 - should be led by Ryan Lanclos, Jeff Baranyi and/or Doug Eades

Friday, 25 October

0830-1100 Break Out Session Seven (continued)

- Mutual Aid Support System – discuss and address any errors or issues regarding MASS data entry.
- Discuss work flow of MASS during exercise (who will have “control” of MRPs during exercise)
- Verify Mutual Aid baseline assets are being entered into MASS (deadline for initial entry is 4-5 NOV)
 - should be led by Dean Baskin, Michael Garmon, Doug Eades and representative from G&H

Some time should be devoted to a dated work plan with deliverable dates and monthly testing dates. Art, Doug, Melissa, Joel, Erik, Brian would be core group to drive this effort. Need to include ESRI & WebEOC on this effort – regular participation/interaction with state contacts.
