

# Arkansas Department of Emergency Management Earthquake Program

## On-Site Leader Training For Post-Disaster Building Safety Evaluation Teams

### COURSE DESCRIPTION:

Leadership and management of post-disaster building safety evaluation teams at the disaster site. The class content was developed from Missouri SAVE's experiences during their Joplin EF-5 Tornado deployment and the Branson EF-2 Tornado deployment.

The class will include training on:

- Post-disaster building safety evaluation enabling legislation
- National Incident Management System (NIMS) overview
- On-Site Leadership organizational structure, job titles and job descriptions
- Post-disaster building inspection deployment guide
- Smart Phone Collector App – deployment, use, technical support  
(this training will take place outdoors)
- Table Top Exercises

*Six Professional Development Hours will be awarded for completion of this class.*

### TARGET AUDIENCE:

Engineers, architects, local building officials, fire service and local emergency managers.

### RECOMMENDED PREREQUISITES:

IS – 100.b Introduction to Incident Command System (3 hours)

IS – 700.a National Incident Management System (NIMS), An Introduction (3 hours)

IS – 800.b National Response Framework, An Introduction (3 hours)

(available free at <http://www.training.fema.gov/IS/NIMS.aspx> )
