**FOR IMMEDIATE RELEASE**

OCTOBER 09, 2013

## Great SouthEast ShakeOut Only One Week Away

Next Thursday, communities in seven states and the District of Columbia will take part in the second annual *Great SouthEast ShakeOut* multi-state earthquake drill. The ShakeOut is scheduled for October 17 at 10:17a.m. During the drill, millions of people simultaneously practice the recommended response to earthquake shaking, or Drop, Cover, and Hold On:

- **DROP** to the ground
- Take **COVER** by getting under a sturdy desk or table, or cover your head/neck with your arms, and
- **HOLD ON** until the shaking stops

The ShakeOut is designed to help individuals and communities get ready for these earthquakes, practice how to protect themselves, and to prevent disasters from becoming catastrophes. States participating in the ShakeOut include Delaware, Georgia, Maryland, North Carolina, South Carolina, Virginia, West Virginia, and the District of Columbia.

Following the second anniversary of the damaging August 23, 2011 M5.9 Mineral, Virginia earthquake and FEMA's National Preparedness Month, *Great ShakeOut Earthquake Drills* are occurring nationwide in more than 43 states and territories. Currently, more than 15 million people are expected to participate in drills on October 17. During the self-led ShakeOut drill, participants perform a variety of disaster safety activities, including:

- Practicing Drop, Cover, and Hold On
- Testing emergency plans or procedures
- Updating disaster supply kits
- Securing items that may fall or cause injury during an earthquake, and much more

The *Great SouthEast ShakeOut* is coordinated by the Central U.S. Earthquake Consortium and its Member and Associate States, the Federal Emergency Management Agency, the U.S. Geological Survey and dozens of other partners. The goal of the program is to engage participants to take steps to become better prepared for earthquakes and other disasters. The drill is free and open-to-the-public, and participants include individuals, schools, businesses, local and state government agencies, and many other groups. *Great ShakeOut Earthquake Drills* began in California in 2008 and have expanded each year since then.

Interested citizens, schools, communities, businesses, etc. are encouraged to visit [www.shakeout.org/southeast](http://www.shakeout.org/southeast) to register to participate in the drill. On the website, many resources are available for participants to use during the ShakeOut drill including:

- Drill Manuals
- Audio and Video Drill Broadcasts
- Earthquake Scenarios and more
